In Board's reference cited 5th above, sanction for the retention of the L.D.A. for a further period of 3 months from 1.4.1953 was sanctioned 46 new loan cases were sanctioned since the submission of my report cited 4th bringing the total number of outstanding cases to 1752. Monthwar particulars of collections during the present period of extension are given below:—

Month.	Principal.	Interest.
April, 1953.	8679-13-5	854.15.7
May 1953	13211--8-0	744-8. 6
	21891—5-5	1599—8-1

No loan cases are reported to have been sanctioned during April and May. As this is only the beginning of the budget year, it is not possible to come to a correct decision regarding the number of loans that will be sanctioned by Revenue and Agricultural subordinates. The number of outstanding cases however justify the retention of the additional L.D.A. Having regard to the voluminous nature of the work involved in this office in respect of the outstanding items, I request that the Board may be pleased to move the Government for sanctioning the additional post for a further period of one year from 1.7.1953 to 31.6.1954. The post will be abolished the moment its necessity ceases.

I solicit early orders in the matter.

8. Board's Ref.L.7508/53-1 dated 26-6-1953. nil.

From the G.O.s cited 1 to 4 above, it is seen that the sanction for the Additional L.D.A. was not under the provisions of rule 3 (ii) Chapter 8 part III of the Takkavi Manual. As would be seen, the provisions are meant for the appointment of temporary accountants for speeding up collection work during the kist seasons, as also to ensure that all sanctioned cases have been entered in the district loan ledgers, when the total number of fresh loans sanctioned in a year exceeds 1,000 and for applying the scale mentioned, it is necessary to have regard to the number of permanent accountants doing loan work. As was already reported there was no Accountant sanctioned for loan work in the district Treasury. Apparently this item of work in this district was considered very light, when compared with other districts, and the work relating to loans was tagged on to some accountant who had other items of work also, such as Treasury and current remittances, periodical cash balance reports and currency chest transactions. Now that the work has increased around especially due to the several postwar and food production schemes etc., and explanation of the old items of work it was not possible to tag on this item of work to any other Accountant. Every item of disbursement of loan involves work in the Accounts Branch such as posting in the several registers reviewing the position periodically and supervision and control over the work of the subordinates regarding timely action for recovery etc., Due to the launching of several schemes, especially post war, several classes of loans are granted, both short and long terms, under L.I. and Agricultural Acts, for varying purposes such as purchase of seedlings, fertilizers, Green manure, pumping installations etc., Grants made by both Revenue and Agricultural Departments have to be properly accounted for and their timely recovery watched. Every now and then, bundles of loan orders are received from the agricultural department. The scriptory work involved is voluminous and heavy and to have all these attended to, with the promptness they deserve, it is absolutely necessary to have an accountant exclusively for loan work. It was for this purpose of coping with increase work that an additional Accountant was being appointed from time to time to continue throughout the year. I therefore submit that the Board may be pleased to move the Government for sanction of a permanent L.D.A. to this district treasury and pending final orders on the subject to allow the retention of the L.D.A. sanctioned in Board's reference cited 5th above provisionally for a period of one year from 1.7.1953. My action in having allowed him to continue beyond 30.6.1952 may also be kindly approved. The statistics required have already been furnished in the previous reports submitted this year.
